## **DON'T TAX MY CREDIT UNION.**

*Taxing Us is Taxing you, the member.*

Federal lawmakers are working on tax reforms. They need to know how eliminating the credit union federal income tax status would hurt the very people they were elected to serve.

A new tax on credit unions would put your financial well-being at risk. Send a message to your U.S. Representative and Senators now and tell them to oppose any effort to add a tax on credit unions.

### "Hello" Text Messages

If you receive a text message from an unknown phone number that reads "Hello", this message is actually a text-based phishing scam called a smishing attack. Scammers send thousands of these messages to random phone numbers, hoping to receive a reply. If you reply to the text, the scammer confirms that your phone number is active and that they have contacted a real person. They will continue texting you to try to gain your trust so that they can steal your data or financial information. What you thought was an innocent text from a wrong number could actually be a scam!

### Kids/Teens Corner

#### *Privacy Tips:*

Be careful what you share online—information travels fast and could get into the wrong hands.

Wi-Fi can be vulnerable. Today's culture is mostly online, be sure connections are secure before using.

#### *Understanding Credit:*

What is it? Credit is a way of borrowing money with the promise to pay them back later. It's an important part of your financial life that can influence your ability to make big purchases, like a car or a house, in the future.

## Walleye Festival Parade 2025
